

SONORAN VALLEY FAMILY MEDICINE
1180 W Congress St, Tucson AZ 85745

PATIENT: Rivera, Marcus A.
DATE OF VISIT: 2026-03-11

DOB: 07/22/1990
MRN: SPECIMEN-0001

ASSESSMENT AND PLAN

1. Tinnitus, bilateral - Patient reports constant high-pitched ringing in both ears, present since 2011 following blast exposure during deployment. Worse at night; interferes with sleep onset. Referred to audiology.
2. Chronic lumbar strain with radiculopathy - Ongoing low back pain since 2012, radiating into the right leg. Pain worse with standing beyond 20 minutes. Currently managed with physical therapy and NSAIDs. MRI ordered.
3. Adjustment disorder with anxiety - Reports hypervigilance and difficulty in crowds. Declined medication; counseling offered.

Provider: A. Okonkwo, MD

SPECIMEN - SYNTHETIC TEST RECORD, NOT A REAL PATIENT
